

Allbäck Paint North America

Estimated Product Lead Times

ALLBÄCK STOCK COLOURS

We stock all the Allbäck premixed colours at our warehouse in Kingston, ON. If we do not have adequate stock, or for a particularly large order, expect certain lead times to receive material:

Option 1: Sea freight

- Timing: 4-6 weeks
- Cost: No extra cost

Option 2: Air freight

- Timing: approx. 2 weeks
- Cost: Around a 35% premium on the cost of the material. A more accurate air freight cost is established at the time of order depending on order size.

Note: Import Customs can present unforeseen delays in timing, but this is rare.

CUSTOM COLOUR RECIPE DEVELOPMENT

Recipes for all custom colours are developed by Allbäck in Sweden. Recipe development can be done from an NCS Kulturkulör Code or from an actual colour sample that we send to Sweden. Using the recipe, the custom paint can be made by the painter using Allbäck stock colours available here in North America.

Cost: \$300 CAD per colour recipe. Recipe is kept on file for future reference.

Option 1: Colour chosen from NCS Kulturkulör Fan Deck

- We request colour sample (30cm x 30cm) from Allbäck in Sweden.
- They use the NCS colour code to develop the colour recipe, produce a sample, and send to Canada for approval.
- Timing: approx. 2 weeks

Option 2: Colour sample sent to Allbäck in Sweden for matching

- We send a physical colour sample to Allbäck in Sweden for analysis
- Allbäck will develop the colour recipe, produce samples (30cm x 30cm), and send them to North America for approval.
- Timing: approx. 3 weeks

Note: Some brighter, modern colours cannot be reproduced using the natural earth pigments in linseed oil paint.

CUSTOM PAINT MIXING BY ALLBÄCK SWEDEN

Once a custom colour is approved, we can request that Allbäck produce the custom paint and send it pre-mixed from Sweden.

Cost: \$300 CAD per batch (regardless of batch size)

Timing:

Option 1: Sea freight

- Timing: 4-6 weeks
- Cost: No extra cost

Option 2: Air freight

- Timing: approx. 2 weeks
- Cost: Around a 35% premium on the cost of the material. A more accurate air freight cost is established at the time of order depending on order size.

Note: Import Customs can present unforeseen delays in timing, but this is rare.

When possible, please advise us of your project as early as possible so that we can be proactive about material lead times.
